

GHD Monthly Newsletter

June 2020

The Global Help Desk (GHD) presents this monthly newsletter to introduce ourselves and let you know some recent domestic news, event information, and recent IBS news. All information presented in the newsletter is available online, and to read the full contents you'll need to be connected to the internet. We hope this information is useful to you. Also, visit the website Living in Korea at www.ibs.re.kr/livinginkorea. Hosted by IBS, it has hundreds of pages of contents and photos to help you thrive, not simply survive.

IBS News & Events

When A Spinning Toy Meets Hydrodynamics: Point-of-care Technology Is Set In Motion

A fidget spinner inspired microfluidic chip can diagnose infectious diseases at the time and place of patient care. Researchers at the Center for Soft and Living Matter, within the Institute for Basic Science (IBS, South Korea), reported a diagnostic fidget spinner (Dx-FS) that allows for highly sensitive and rapid diagnosis and prescription only with hand power [Read more](#)

Microsoft Academic's Top Author Rodney Ruoff

Rodney S. Ruoff, Director of the Center for Multidimensional Carbon Materials (CMCM) at the Institute for Basic Science (IBS) and Distinguished Professor in the School of Natural Science at UNIST was mentioned as a Top Author among all Materials Scientists in the world, according to Microsoft Academic [Read more](#)

South Korea's Institute for Basic Science faces review

South Korea's highest-profile investment in basic research is in the Institute for Basic Science (IBS), a network of research centers. The centers cover areas including dark matter, nanomaterials, genome engineering and climate change. The first group of centers are coming up for review this year which marks another significant milestone for IBS [Read more](#)
